

Quality Policy

SIC Hungary Ltd's manufacturing machinery consists of high-performance, versatile and flexible, rubber-production machines. Our products are: molded rubber products, rubber sheets and fillings, elbow tubes, extruded parts, molded and cast rubber products from silicone.

Unser Motto lautet:

VERSATILE AND FLEXIBLE RUBBER MANUFACTURING

During our manufacturing and servicing we strive to ensure complete satisfaction of our partners.

The goal set by the company management is to gain a strong European recognition in the field of rubber product manufacturing. To achieve this goal the following business principles have been defined:

Customer focus

We provide full service according to the needs of our partners. We continuously monitor these needs. The quality of our service is developed according to these customer needs.

Quality management and continuous development

Our company created and established its quality management system in accordance with EN ISO 9001: 2015 standard covering all commercial processes.

We maintain an up-to-date practical expertise.

Our internal processes are planned and continuously developed according to customer requirements.

Individual Authority

The selection of our employees, suppliers and subcontractors is based on the highest level of professionalism and aptitude.

Our Company Philosophy

Quality is high level compliance with customer requirements.

Quality leads to confidence. Familiarity with the values of quality systems and efficient implementation into daily practice achieves good results for customers, employees, management and the environment alike.

2018. March 1.

Michel Alliance
